Bring a glow to any space with ATI Decorative Laminates' Lumisplash, an illuminated backsplash panel system with no air gap required for LEDs. Recently presented at KBIS 2014, the 3/8-in. surface features even illumination throughout and is dimmable so it can perform as a task or night light. Lumisplash can be fabricated to size and designs can be changed out at low cost once the system is installed. It is available in standard heights of 16 and 24 inches and in lengths of 48 and 96 inches. Custom lengths can be made to order, or they can be field cut to smaller sizes. The panels are crafted using ATI's proprietary FusionTech process, where images are embedded directly into the substrate. It creates a high abrasion-, chemical-, scratch- and stain-resistant surface appropriate for residential or commercial applications. Lumisplash retails for approximately \$75/sq.-ft. For additional kitchen options, [click here](#).
